

# DUAL ENROLLMENT COSTS

## North Central Uses Contact Hours to Calculate Tuition and Fees.

- Contact hours are the total hours per week of scheduled classroom, lab and clinical instruction time.
- Contact hours for billing purposes will vary and are listed in the class schedule.

There are various components to calculating your college costs for each semester.

Definitions for each component follow the Tuition and Fee Calculator. The calculator produces an estimated cost. Actual costs will be calculated at the time of registration.

The cost calculator can be found on-line at

<http://www.ncmich.edu/paying-for-college/north-central-cost-calculator.html>

Petoskey High School pays up to \$641.17 per course for the 2018-2019 school year. Therefore, some courses, especially 5 credit course can exceed said amount. We strongly recommend buying/charging used textbooks when possible.

We have accessed the NCMC website/Cost Calculator

The estimated cost for selected courses is \_\_\_\_\_

After PHS allotted payment, the estimated cost, without textbooks, will be \_\_\_\_\_
